Providing Supplies and Equipment to Printers Since 1970

Professional Rotary Trimmers

These trimmers are versatile enough for small print shops, copy shops, and offices. Choose the size that best fits your common projects, the 12" Trimmer (KV6812), or our 18" Trimmer (KV6818).

Patented cutting rail holds paper firmly in place, while premium carbide blades ensure a precise, accurate cut. Sturdy metal base is calibrated and features preset measurements for common-sized items. Updated graphics, rulers, and grids make it easy to trim materials.

The cutting blade rests directly next to the cutting rail, so there is no guessing where the blade comes into contact with the materials you are trimming!

Trims up to 10 sheets of standard 20 lb. bond copy paper. Also trims card stock, black core artist mat board, plastic sheets, acetate and much more.

These Professional Series Trimmers come complete with a straight blade as well as a perf and scoring blade.

Key Benefits:

- Trims up to 10 sheets of standard 20 lb. bond paper
- Sturdy metal base is calibrated with preset measurements
- Limited lifetime warranty (blades and cutting mats excluded)

Please call for current pricing.
