Model EX5100 Martin-Yale Tabber

**Made specifically for production
Tabbing of pre-folded sheets.**

- **Reliably** seals mail pieces with adhesive tab to create a mailing that complies with US Postal requirements.
- **Reduces** cost of mailings by eliminating the need for envelopes.
- **Handles** pieces 5" to 12" wide at up to 7,500 pieces per hour.
- **Accepts** 15/16" & 31/32" round and 7/8" square tabs in rolls of up to 5000 tabs.
- **Precision** control of tab location.

**Up to 7,500
Sheets Per Hour!**

This is a robust machine that is extremely helpful for anyone that sends out self-mailers. If you have been tabbing your mailings by hand there is no comparison! This unit will get the job done in a fraction of the time with perfectly placed tabs on every piece.

If you have used other brand tabbing machines you will find the EX5100 much simpler to set-up with trouble-free feeding for your entire run.

The EX5100 uses a table space of only 20 x 21 x 17 inches. Use of Clear Tabs is not recommended with this unit.
